

**DALY CITY PUBLIC LIBRARY  
POLICY 12: WATER BOTTLE**

The Daly City Public Library does not allow eating or drinking in the public areas of the library, per its Behavior Policy adopted by the Library Board of Trustees. However, some library patrons and staff require the convenient access to drinking water for health reasons.

Patrons and staff wishing convenient access to drinking water may do the following:

1. Drink water from the library drinking fountain, if available.
2. Bring personal drinking water to the library in a sports water bottle, assuring that the bottle is capped and in the closed position when not in use.
3. Individuals will place water bottles on the floor, in backpacks, or in another out-of-the way place when not in use.

Adopted by the Library Board of Trustees: 4/20/99
